

## Product Specification

| Model | Capacity (L) | Type        | Dimensions Excluding Insulation |               | Height from ground of screwed connections |                     |                      |                        |                        |                          |
|-------|--------------|-------------|---------------------------------|---------------|-------------------------------------------|---------------------|----------------------|------------------------|------------------------|--------------------------|
|       |              |             | Height (mm)                     | Diameter (mm) | Cold feed (1" BSP)                        | Hot Outlet (1" BSP) | Direct flow (1" BSP) | Direct Return (1" BSP) | Indirect flow (1" BSP) | Indirect return (1" BSP) |
| 30x18 | 98           | Open Vented | 750                             | 450           | 100                                       | 750                 | 495                  | 100                    | 350                    | 100                      |
| 36x18 | 120          | Open Vented | 900                             | 450           | 100                                       | 900                 | 597                  | 100                    | 520                    | 100                      |
| 42x18 | 144          | Open Vented | 1050                            | 450           | 100                                       | 1050                | 759                  | 100                    | 520                    | 100                      |
| 48x18 | 166          | Open Vented | 1200                            | 450           | 100                                       | 1200                | 900                  | 100                    | 520                    | 100                      |
| 60x18 | 218          | Open Vented | 1500                            | 450           | 100                                       | 1500                | 1150                 | 100                    | 760                    | 100                      |
| 36x15 | 87           | Open Vented | 900                             | 375           | 100                                       | 900                 | 597                  | 100                    | 520                    | 100                      |
| 39x15 | 96           | Open Vented | 975                             | 375           | 100                                       | 975                 | 690                  | 100                    | 520                    | 100                      |
| 42x15 | 103          | Open Vented | 1050                            | 375           | 100                                       | 1050                | 759                  | 100                    | 520                    | 100                      |
| 48x15 | 118          | Open Vented | 1200                            | 375           | 100                                       | 1200                | 900                  | 100                    | 520                    | 100                      |
| 48x12 | 75           | Open Vented | 1200                            | 300           | 100                                       | 1200                | 900                  | 100                    | 520                    | 100                      |

- All Ecopod cylinders are Grade 3 as standard.
- Grade 2 versions are available.
- Horizontal models are also available

**Material:** Copper (BS 2870 C106)  
**Grade:** 3  
**Insulation:** 30/35 mm Spray Foam Lagged
